JOBGING IN ALL ITS BRANCHES.
 TELEPHONE CONNECTION.

Col: O. C. Crosby, Jr.
 Supt. U. S. Mint.

Dr. Sir,

Replying to your favor of yesterday's date, relative to commencing work on Elevator shaft. I think you are under a wrong impression as to my commencing last Monday week. It may appear strange to you that it should take so long a time to get the necessary material together, but we have to depend entirely upon the large rolling mills for the iron beam girders which we require for this work, and it usually takes a longer time, as in this instance, to get a small order executed by them, than it does a large one. I am advising that these beam girders will be shipped to day, and I will therefore commence the work on Monday next, 5th Inst.

It would have been useless for me to leave your place all up; it would have put you to inconvenience, & you would have gained nothing by it.

Respectfully,
 Charles McCaul

Supt. U.S. Mint

Dear Sir,

Replying to your favor of yesterday's date, relative to commencing work on elevator shaft. I think you are under a wrong impression as to my commencing last Monday week. It may appear strange to you that it should take so long a time to get the necessary material together, but we have to depend entirely upon the large rolling mills for the iron beam girders which we require for this work, and it usually takes a longer time, as in this instance, to get a small order executed by them, than it does a large one. I am advised that these beam girders will be shipped today, and I will therefore commend the work on Monday next, 5th inst.

It would have been useless for me to hear your place all up; it would have put you to inconvenience, & you would have gained nothing by it.

Respectfully Yours
Chas. McLaue
